

Rescue Dogs for Nepal

Nepal is one of the world's most popular trekking destinations. But, every year, tourists have accidents and go missing in remote areas. Natural disasters such as landslides and avalanches also kill and injure the local people. And Nepal is one of the most active earthquake zones in the world.

SAR (search-and-rescue) dog teams can help effectively. But foreign SAR teams always reach the affected areas too late, because of the inaccessible topography and lack of road infrastructure.

That's why **Nepal's only Search and Rescue Squad** (Himalaya Rescue Dog Squad Nepal – HRDSN) was founded 20 years ago, to save people in need. Now, after 10 years of civil war and the worldwide recession, this important SAR squad is on the verge of financial collapse.

They need help now!

We are helping them **build** the squad and want to ensure that they will be a strong organisation for the **foreseeable future!** Nepal **needs** this mission-ready Search and Rescue Dog Squad!

Please help us to help!
